Domino is one of the leading providers of in-line coding-and-marking systems for high-volume produced components, products and packages. UK-based Domino Printing Sciences has 3,000 employees around the world and is a part of the listed group Brother Industries of Japan with 30,000 employees. Our codes are applied everywhere and "by the billions"; eg as best-before dates on food-and-beverage packages, unique serial numbers on tobacco and pharma packages to provide anti-counterfeit security as well as for tax-control purposes, bar codes for controlling internal and external supply chains etc.

As a daughter company to Domino we have group responsibility for the Print & Apply technology. Our systems are typically integrated in production lines to automatically print and apply unique labels on packages. Our customers are multinational players like eg, Mondelez, Nestlé, Coca Cola, Tetra Pak, GSK, Pfizer, Krones, Pester Pac Automation, Imperial Tobacco, Anheuser-Busch InBev and SCA, but also local manufacturing companies in all kinds of sectors.

Domino Print and Apply is currently looking for a **Software Engineer**. The scope of the position consists of, but is not limited to:

- Development of distributed Windows applications using C# .NET and Visual Studio 2015 and technologies like WPF, WCF, XML and XSD, SQL Database access

- Work is conducted in project form and in international environment involving teams and colleagues from other development centres

The ideal candidate will have:

- A technical education from University.

- At least 2 years' experience of Software development

- Strong communications skills in English and Swedish, both written and spoken language

- Good knowledge and experience of Windows Operating Systems

- Good knowledge and experience of Software development using C# .NET

We believe that these individual characteristics are important and we believe you are:

- A team player
- Diplomatic, adaptable, driving and have sense for self-actions
- Communicative and have an ease to create good relations at work
- Social and likes to write and inquire correct information
- Not afraid of facing challenges and have a positive attitude

- A problem solver that understand the necessity of a working product and quality

Domino Print and Apply offers you the opportunity to work in an international company, with a strong position on a growing market, with dedicated and highly skilled employees.

In this position, you will report to the Software Team leader at Domino Print and Apply and the position will be based in Malmö, Sweden. You will work together with members of R&Ds different disciplines and together with colleagues from our other Product Development centres in Europe.

Candidate selection will be ongoing, please submit your application, with attached CV, as soon as possible but no later than June 26th to: par.persson@dominopa.com
